

12  
ART

Art is a means of self-expression, while design strives to serve a purpose. In this collection, Edition 12 "Art", I want to celebrate the uninhibited self expression of modern art yet still create a viable resource of patterns that will provide a unique starting point for an ultra sophisticated interior. Painterly brush strokes, graphic layouts, and a bold use of color are transformed into design elements used to express a confident statement of style. Whether you favor abstract, industrial minimal, sketchbook florals, or expansive ombre stripes, these unique and cutting edge designs will surely appeal to the artist in you.

— Carl Robinson
